Browsing for sniper servers last evening, I find the supply of populated servers is once again depleted.

After a few minutes, and a refresh, this new server I have never seen pops up, and has 3 folks in it.

I join, and kick butt. I am promptly accused of cheating multiple times by the "moderators" who continually threaten to add me to thier thier "GLOBAL BAN LIST".

Unimpressed, I continue the moderators who are now using regular infantry to kill me, and are still losing. They attempt to kick me. Both fail miserably, and the host, who keeps typing LOL LOL LOL, attempts to reset thier clearance to do so.

Now they claim I am not allowed to shoot anyone. Riight.

I keep kicking n00b tail, and the accusations fly about bighead mods, Blah blah blah.....

Now the host finally realizes resetting thier clearance isn't working, and tries to kick me. The words "KIRBY098 was Owned for being a jerk" or some other thing show up. Still no kick. I cannot stop laughing at this point.

Not only have they whined for 10 minutes, cheated by using infantry on thier own server, and accused big head use, but now theier host is powerless to kick.

Well, unable to resist, I grab a nuke beacon. I figure if I'm going to get blamed for it, they are unable to type, let alone shoot, and I am never going to see this server ever again, I might as well do it.

Too easy.

The screams of "OMFG!!!!!!111111111!!" are a joy to see.

I just couldn't help it.

Then I move to another server. Here these "snipers" have decided you can snipe with mammoth tanks.

Clearly upset I feel the need to discipline these fools. I singlehandedly ruin thier base, and all illicit vehicles.

I love this game some days.
