"I'm not sure how this will go or how it will be received, but I think it might be fun. Different strategies when you only have 5 minutes to win."

My server was dead all day. LOL

OK, so that didn't work. It was worth a shot. I don't have enough of a moderator base (because Blazer is still working on getting BRenBot working on the new server) so I skipped sniping on Sunday. I'm also skipping Mod Map Monday because I haven't had a chance to evaluate maps.

So... Wednesday. Should I do 99999 creds or just something a little richer like 1000?
