el_diablohey guys i am new to this forum. actually what i need help with is renegade.... i have been trying to find its cheat codes or something of the like but i cant... would someone please please help me out? i am in desperate need of it. thanx to whoever helps me..

First of all CHEATOR! second, there are none, just the Extras code which gives a couple Extra vehicles and charecters for both teams. Code is "extras fnkqrrm"

Then hold "alt" while clicking either Vehicles or Charecters
