All I really know is that foenixz was being an asshole about it to Crimson, so she is probably giving him his "comeuppins" or whatever... I mean if you actually want to give all those botnet owning idiots IRCOp and protected status, watch out if one of your members talks shit, "wham, there goes [FoD]SomePerson offline."

Maybe his ISP can't take another hit. That's no reason to blame everything on her.
