What do I have to do with this? Don't go crying foul, now - I don't take unwarranted pot shots at you. Keep it up with me and you'll find that you won't have the ability to post here anymore.

Why don't I use flyovers? Probably because no one really cares. Are you going to stare at the occasional jet flying overhead or are you going to worry about the soldiers shooting at you? Fuck's sake, this is a deathmatch level, it isn't some scenic tour of the African desert.
