there ya go someone turns yet another thread into a flame
well done longbow
you just proved gamespy IS more childish and retarded

just for the record i play on both
but rarely go into GSA to chat because most lobbies turn into flame wars
i connect to GSA servers with ren ip and play on wol cos its nice to see some stats at the end of the month
i would also say from experience WOL has more ambitious player who want to win (mainly i suspect because of stats) so therefore take the game more serious
