HAHAHAHAHAHAHA.... Soooo.... Anti-Porn Guy is back. He changed his website I see. I remember him from 4 years ago when he first create that website. He took down the website for many reasons. One reason was because he kept recieving Death threats from people.

I remember once he came into a Geocities Chatroom (Back before yahoo bought them off) and was advertising his website. There was so many people making fun of him and calling him names. He couldn't take it and told everyone to Fuck off and left. It was so funny. I think that was the first time I ever heard of him too.
