Hey GuyZ , i live in an asian country. luckily i just got hold of Renegade and it waz amazing in sigleplayer. In my neighborhood here 32Mb Video cards still rule. Sadly i have a low speed internet connection and when i go to internet games in Renegade the game says that i need to download a 18Mb update. can i play internet games without downloading this update becuz if i wanat 2 download it takes atleast 2 hourz but when I intalled Gamespy i log on 2 serevers but still i come 2 the same place where i need patches PLEASE HELP A POOR ASIAN GAMER
