This problem I've had with the past 2 maps I've made. I just can't fix it.

About 3 months ago I gave up on a map called C&C_Arctic. I tried everything I could think of to fix it. I even converted it to a DM map(was previously C&C mode, after extensive manipulation of the gmax file. I tried recompiling the vis, no luck. I just cannot figure out what is wrong with my maps. I worked really hard C&C Arctic and it's ruined. So I moved on to C&C Airbase, and now it has the same problem.

I have it backed up, but I'm not yet certain that'll fix the problem.
