forsakenYeah, Renegade was one of the easiest games for me, the AI is pretty crappy, they all run in a straight line.....When I first started Ren SP I went on commando, and it didn't seem hard, probably because I got used to that 75/75hp rather than 200/200hp. The only hard thing I saw in Renegade is in some places there were just huge masses of guys that would just seem to keep coming, with limited ammo you just had to shoot and keep running most of the time.

Like the end of the All Brains No Brawn mission where you have to protect Mobius who keeps dieing
