---

heres a question:

whats RG gonna do when it finds that someone is using a file it doesnt like.....im a little worried ab00t it not liking the bright sniper skins that most of the HT members and mods use on our servers to spot snipers easier (its a no sniper server), what happens when i forget to take these files out? (happens once in a whil ewhen i play on other servers) will RG ban me or report my ip or something like that just for making an honest mistake?
