AircraftkillerYes, I realize that.

A public forum where people may give their opinions, however misinformed or stupid they might be.

Good then you see my point.

EDIT: ACK do you really think people just listen to other's opinions about you? When I first came to the official forums back when WS hosted them I read three of your posts, gathered from them that you were arrogant, but I don't have anything against you. Most people just don't like the snide retorts you throw at them, for no reason or good reasons for that matter.
