I can! utter humiliation

I can't believe sumone said this mod was going to "save renegade" :rolleyes:

1) It doesnt need to be saved

2) Renegade was better off before they released it. Well...actaully I guess we needed a good laugh over the christmas holidays

This mod sux. If you searched shit on google, reborn would come up as the first 100 results  
</exageration>

well other than that, steppo summed things up pretty good.
