Sir PhoenixspreegemSir PhoenixUmbral_DelaFlareDude, if you do get that car, I am SO going up to Central Florida to steal it from you.

Lol... It's not an "if", it's a "when"...

And you wouldn't be able to steal it from me. I have the ultimate security system planned out. I'd gladly spend the money to have the best security devices installed...

I'm sure given enough time people will find a way around your security no matter how good it is. . . even if it takes them years people will find a problem with it eventually.

They'd have to be allowed to get into/under the hood/trunk/etc. and mess around with the electronics... Do you think I'd actually let people do that to see if they can get pass the security devices?

I would let people, are you not going to?

Besides ther are probably other people with security systems such as yours so people just have to figure out how to get past them, and then they can get past yours, but they would have to know what kind of security system you are using so that they can research how to get past it.

Forgot about that LOL! :oops: :oops: :oops:
