It looks good. The vehicles actually look pretty good as well. The pics on the website don't really do them justice. My only complaint is that some of the soldiers don't look all that good. Especially the flame thrower. And the minigunner. Its not so much the "plastic" look as it is they just don't look to have as good quality as the vehicles. Other than that, this looks pretty sweet. Can't wait for release.
