This Bible code thing was just made by some nutty guy who wanted to get 15 minutes of fame. He took out a peice of paper that had Hebrew written all over it, pick out letters that made "Kennedy, Terror, etc." and then "concluded" that...

"The Bible has predicted everything that has happend in the world."

Even I beleive in God and the Bible, but I don't beleive in this "Bible Code". :rolleyes:
