No he had his buddy /page me saying that he said I was a fag. Out of the blue. For no reason. Had no idea who diodeone was, other than a point/ladder whore. After confronting him he said I should know why he hates me. Which I assume is that I "cheat." Perhaps I just owned him in some game that I don't remember, or he has a dislike of people with "C4" in the names. Who knows. Still gay that he rallies his little bitches to spam shit to me for no apparrent reason.

Diodeone, fuck off. You suck.
