the sounds for like the footsteps and even the ST hum can be increased
but i dont see why tho.. i hear SBH running past even when they are not viewable.. guess i just
got good ears..

the sounds are loud enuff already.. but i think the sound level is effected like the Stealth view
distance??

also i am not to sure if this can be done.. but if you save the stealth skin effect in the wrong
mode.. with no alpha.. would this create it to go black and be viewable even when cloaked?
