Do not post in discussions in which you have no frame of reference or CLUE what's going on.

what do you mean by this?
I posted 2 things which I backed up in this thread, both in which you had a problem with and were wrong.

1, I said ack doens't give credit to original westwood map makers (with the exception to the glaicer map) To prove this, download any westwood map from cncdecn.com e.g. metro, bunkers, e.t.c. and you see it says the sole creater is ack.

2, I think you banned gse because they were kicking too much ass, and you kicked them because your highness got all pissy, a kick would have been in order,; but your a pretty shitty moderator if you ban based on "crimson makes rules so that you can hit her" please... you must be a total n00b if you think you have to prove to anyone that, this isn't true, and banning the person who said this doens't make your case any better.
I run a server as well, people talk shit to me all the time, I dont' ban them or kick them. If they break the rules, like steal a tank I'll kick them.
