Alright you bunch of whinny little annoyances *Alkaline cough cough*

Here's how I see it. Alkaline you seem to have a problem with authority. Crimson owns the server and she dictates who is banned/kicked whatever. If she so desired she could ban a person for no reason at all and give no explanation, and there's not a damn thing anybody could do about it. However, she appears to try to set the rules to make the game as fun as it can be. If you don't like the rules then the best thing to do is to play in another server. If you think someone was unjustly banned then try to reason, and even if the moderator still doesn't see it your way you might consider asking for a second chance.

It seems to me, though, that you're only here to start a fight.
