
Subject: A valid question about stealing vehicles!

You ask if you can have the vehicle and if the owner says you can have it you take it.

Otherwise you don't.

However I do make a distinction between stealing and borrowing.
There are times when your base is under attack and you don't have time to ask (you need to stop three flamers now).

Under this scenario I think its ok to borrow a vehicle, however after the emergency is over you have to give it back, and if you get it destroyed you must buy the owner a new one.

Just my 2 cents,
Gib
