General HavocIdea of mine http://www.renegadeforums.com/viewtopic.php?p=63647#63647

rm5248I'm having trouble getting RenAlert to work. Whenever I try to play, I get an error message saying that it has crashed. Whats the problem?

http://www.renevo.com/renalert/forum/showthread.php?s=&threadid=724

... It's Win-Key + R on my machine

well that worked... alto it was already set to 1 O.o

thanks
