DeathRIPI always run towards the tank in a suicidal dash!

I always buy a new video card when I get squished....

I'm never sarcastic. :twisted:

Imfao

I agree. I'm not gonna buy a new video card to avoid being squished once in a while...and what is the point of a new video card? It doesn't change the speeds or parameters of the vehicle, my tip is get the fuck away from a vehicle if it spots you! That simple!
