Well if you spent time to read my tutorial you will see that i credit everyone who's help or work has been needed in them. This will include you as well as bumpaneer for working on the helipads and their agregates. Also stonerook for help me setting up the agregates on the helipads. I have only released a video showing how the script works so i don't think you can call that claiming credit for someone elses work. Also i would like to see a place where i have once mentioned ANYTHING about me doing all of the work and not giving credit to the people who deserved it.
