eggmacMarshthe community could of made a better game and have made renegade into the best game around, im sure if we all put our heads together we could make a renegade 2 ourselfs

lol, go ahead!

But seriously, wtf are you talking about?

i said the community could of made a better game than ea or westwood or whoever the hell made it.

and the community have made the game better by sticking with it and improving it with maps and mods etc.

if everyone who could mod well, and the community came up with the ideas, we ourselves could make renegade 2...3...etc.
