XXX.XXX.XXX.XXX - Your IP Address has been Traced (Right....(Not revealing the IP,duh))
Windows 2000 is Your Operating System (Oh yes)
You are in , (Oh,where's ,?It really typed it,lol!)

If ANY of the following things occur on your computer, then you need to secure it IMMEDIATELY!

* If your CD-ROM drive just ejected (Wow,it never ejected,cool,huh?)

* If a big "PRESS ENTER" page just popped up and took over your WHOLE screen when you click HERE (WOW!
Not Found
The requested URL /start/ads/pop.htm was not found on this server.)

* If a program on YOUR OWN computer LAUNCHES when you click HERE! (LMAO!
 ALERT!

If this message opened up in your OWN TEXT EDITOR like NOTEPAD
then ANY WEBSITE can open ANY FILE on YOUR COMPUTER!

See the next example on the referring webpage for proof!

Duh,every site can do that)

* If a file from YOUR OWN computer can BE OPENED when you click HERE! (It should open
c:\windows\win.ini as an example) (System can't find the desired location,something like it,cause
i'm using Chinese Windows,but wait,the real anwser is: 2000 isn't that folder,was it?)

* If YOUR OWN hard drive directory can be accessed from ANY WEB BROWSER. Click HERE to
test. (Oh,nothing happened,oh wait,is this my computer....*pulls the computer out of the room*)
So almost everything don't works,lol
