I believe Red Alert's theme song was called Hell March, atleast I think that's the name. Anyways, if you've played the game you know what I'm talking about. I haven't played RA2 but I heard from my cousin that it has basically the same song except better.

Tiberian Sun is the only other C&C game I have besides Renegade. I bought the game a while after it came out so I got the game, Firestorm, and the soundtrack. In my opinion it had a few pretty good techno songs, my favorites being Defense and Pharotek. TS did not have a main song though.

And last but, wait...yea, last and least we have Renegade's music. Renegade has the song during the into clip, and that's pretty much it. The songs played during the levels can't even be called songs. The one on the third level has a tune that lasts about 4-5 seconds, and it repeats over and over and over. Seriously, a monkey could have been more creative than that! :stern:
