You take that seriously?

Have you seen that guy's bio?

Quote:I'm a 33-year-old freelance illustrator/ animator/web developer residing in the beautiful town of Montclair, New Jersey with two cats, and a roomie. Although I have no formal education in political affairs, I have been studying history, politics, and sociology for the past 16 years. While it's not much, it's more experience than Rush Limbaugh, Michael "Savage" Wiener, and Sean Hannity had, combined, before they began spewing their filth into the vox populi.

How can ANYONE take this guy seriously?

No formal education in political affairs? Doesn't surprise me. This guy's about as arrogant and ignorant as Maddox :rolleyes:. You should really pay attention to people who actually KNOW what they are talking about.
