Yeah. The one you're complaining about.

Shit all over this one if you want. No one wanted to join that guy's team, and if you think a discussion about the difference between "skin" and "texture" will degenerate completely, then you can stay out of there.

You have no business in the mod forum. You are there only to stir up trouble and you damn well know it.

I'm hoping Crimson gives you the "you're not welcome here anymore... You might as well just leave because I'm just going to ride your ass every time you post here so you feel bad" treatment, too.
