Quote:But the US wasn't part of the Allies in RA1. They probably would've remained neutral throughout the war (didn't get attacked by Japanese in the middle of it), yet they supported the allies with weapons.

When games of this genre and time period are made, their makers almost always chose to follow an alternate reality because that allows for much more freedom to create new plots and scenarios.

If you ignore that fact, it won't hinder the whole location of the battle.

EDIT: But seeing as ACK just showed that there was a large US role in RA, it is probable that the Soviets would benefit from attacking Pearl Harbor.
