I posted this on n00bstories but it was deleted. Not a big deal, it had nothing to do with Renegade.

This happened a few years ago. I was in class in high school, in 9th grade I think. We had just gotten our tests back, so of course we were all checking out each others' scores and finding out the correct answers. One of my answers was marked through, and the word "omit" was written next to it. One guy looked at his paper and confidently said, "Yeah, I knew it was that word, om...om, omit."

:rolleyes: :rolleyes: :rolleyes:

Post your real-life n00b encounters.
