Hello, I am having a problem trying to run multiple Brenbots on the same machine. The one that has the default directory...

C:\Westwood\RenegadeFDS\Server\

Runs great. But this directory...

C:\Westwood1\RenegadeFDS\Server\

Does not. In mirc I cannot execute any commands, I can just see what is typed by players in the game, and when a vehicle is purchased. Also, when I do the !playerinfo command, it shows no players when the server is full. I also am not able to put in the...

RenRemLinuxHost =

RenRemLinuxPort =

RenRemLinuxPassword =

When I change this from default, the bot gives an error, then exits. So, the bot does not start when I change these settings, but I have no control over the server. And when I change the settings Brenbot wont open.

Any Ideas?

Thanks
