Coming soon to a forum near you...

A must have tool for Renegade Server Moderators, RenMonitor the ultimate mIRC Renegade server moderation utility.

Note: I have just been introduced to a way to implement BRenBot support, but it will be a while before I complete a compatible version. I do hope to release a BR .Net beta very soon, however. Also, I don't intend to make DS or Gamebot version because I mod on none of those servers for me to test it.
