to the greatest renegade contributor there is.

I hold him and ACK in the same respect level. Without them and blazer/crimmy, we would not be here today, playign the game I love.

What he said, without Crimson,Blazer,Ack and yourself the community wouldnt be what it is today, thanx for all the programs you've done for us all, good luck on what ever awaits you in the future.

P.S so you wont be writting anymore programs for the community?
