---

Does anyone know of a good sound editor, or a voice editor? I need one for a project of my Dad's . . . after it's all done (A couple months or more) I'll post a topic up here about it. I'm sure some of you wil find it interesting or useful. We are trying to get it done before summer time . . . Mid June and so far we are doing fine.

Thank You in advance . . .
