Do you even read what you write before you post? Is it that hard to type a coherent sentence before hitting the "submit" button? Is simple grammar really that hard of a concept for you to grasp?

You often do post ridiculous and meaningless flames and spam, but you don't realize it. That's why you're bashed most of the time. If you weren't an asshole, you wouldn't be bashed. It's as simple as that.
