^Yah there was this problem last week about horrible lag online. It seems that has all been fixed. Mine doesnt lag hardly ever, of course you have to select good servers as well. I have tons of fun with the game and play it whenever I get free time after work and between my personal life. Not much playing time, but Ill take that 30 minutes to an hour playing this game then sleeping!

PS: Has anyone tried the wirecutters online? Oh so fun, nothing like jacking up a few Cobras and Huey's then watching a crap load of peeps run it in, then BOOM as soon as they get two feet off the ground! MWAHAHAHa
