Anubis SunI'm just wondering how long it's going to be until we get news like this for WOL...

I like many of you don't look forward to going to gamespy, I play Call of Duty and Halo on gamespy and the community is lacking a few IQ points to say the very least.

I think both have their fair share of idiots. I run a server on WOL, and quite frankly, many of the players on there are seemingly retarded. I've been working with some trying to get them to type out "you" instead "u" for the last three months.
