haremanDAN you suck balls we have a right to what is best for OUR country YOU joined the EU and the EU is not all that friendly to OUR economy. Drop your import restrictions lower YOUR own GODDAMN tariffs. Why the fuck do some of you euro trash (no offense to the rest of you) want to to whine about what is by definition OUR own internal policies yet cannot handle YOUR own internal problems without OUR involvement.

Drop the issues of penis envy already. America still has the biggest one on the block despite the EU having with HOW many countries? Sorry but the dollar is still the benchmark for the rest of the world as far as it goes .... wait a minue I am not sorry for for that. We worked hard for that position.

And far as not supporting GB before Pearl Harbor get it straight look at the losses suffered by a supposedly neutral country in merchant marine before we even entered the war ..... how about American lives lost supporting GB through the merchant marine after?

<http://www.usmm.org/sunk39-41.html#anchor325668>

and look at all the ships detained by YOUR country prior to our entry.

How many Americans lost their lives to invade the continent again so YOU could whine about OUR economic policies. I suppose we could have done nothing and you would be still raising your arm in salute of Das Fuhrer.

So go tell it to someone who cares about your sniveling whiny attitude.

Onwe mreo thing arther than whiing about it WW2 I would prefer to be thanked about saving your miserable worthless whining overly self riteous ass from singing the Horst Wessel song everyday at school.

Disclaimer: I do realize many if not most from England are ok (Dave Andy and so forth) but I get my blood pressure up when wankers like this just have no clue as to how the world works.

Which brings us back to our original point.

The U.K. is worth fighting for. America has always thought so. It always will. American soldiers will die alongside British as long as you'll let us.

AND TO EMPHASIZE THIS POINT, AND SHOW THAT AMERICA ISN'T ABOUT "GETTING SOMETHING" IN RETURN :

We liberated France. What possible gain could there be in that circumstance?
