Quote:1.It needs Renegade registry settings and Renegade CD key to work.

No, it doesn't. How many times do I have to tell you this? I know several people who use the game who don't own Renegade and don't have it installed.

Quote:3. Well, you don't seem to care enough about anything else than yourself.and even that is going bad.. regarding what people think about you.

What I care about has nothing to do with you trying to bribe me into giving you something you want. Conversely, that looks just like what you accuse me of.
