I'm unable to get to http://www.renegadeforums.com. I'm on a business T1 and have tried several times. Pinging n00bstories.com works fine (100% success) but I get 0% success for http://www.renegadeforums.com. I am able to connect fine using the http://www.n00bstories.com/renforums URL just not the other one. This is the first time this has happend so I wanted to bring it up.
