---

Use \$regex and use a mod list.

```
if ($regex($lower($strip($1)),( $+ %mods $+ ))) {
```

then for the variable:

```
%mods
```

```
snipesimo|flaw932|ohnoou812|zonekill9|gbcbsfnst|kikilink3|egg098|bommae|chitzkoi2|rocsnper|gr  
ebstlaz|rachael6|taardvark|lekrovov2|dmdhoomer|jessie182|uldschool|ghostopsx|dogtired2|littlfuzz  
|dellton|falmark|mortock42|wackoglow
```

Also if you want to do a page command try something like this:

```
msg $chan !page $strip($remove($1, Usage: !kick <reason>
```
