my game is destructed, take the programm out of the world, it isn't funnny anymore, since three days i try everything wich is available to make it working, but nothing works.  
opposite happen, my game iis totally destructed:

RenGuard is already loaded, unload it and try again

means that , that i have downloaded it?  
it isn't active, i can realize that at the task-manager, but it say's so  
there more problems than help with that
