Terminator 101I know that this is a bit off topic, but Is there any way to download NFS1 from kazaal/IRC, or anywhere else? It was a very good game and even if it is very old, my brother liked it much better than any other NFS . Or if someone has, it could you send it to me?

For older stuff, if it isn't abandonware , try Emule. It's not the fastest P2P software/network, but it has a huge collection of older and rare files.

For newer things, BitTorrent is the way to go.
