OK, here's my little story. Alkaline was getting flamed pretty bad on RenStation when I "found" him... I guess they got sick of him or vice versa but somehow he ended up here.

Note that I LIKED HIM at the time. Also note that at this time I ran only two servers... n00bsvr01 which was on WOLSpy and crimson79 sniping. He JUMPED ON MY SHIT for no reason flaming the shit out of me for hating GSA and thinking GSA was a bunch of n00bs.

But the truth was, I never disliked GSA. The fact that I run a server on there kinda proves that. He went off the deep end on me with no justification... and I'm DAMN sure I'm not the only one. Now he's jumped onto Scrumfy's anti-Crimmy bandwagon because he finally found someone who liked him I guess.

Fortunately for us, now that he's hopped onto Black Cell's hind end, we are probably seeing the last of him. He doesn't seem to have the attention span to visit more than one forum.
