warrantoSnatched up the forums? Wait.. I forgot... wasn't it Westwood that GAVE them to her? I mean, it's not like she was the only one who asked...

As for the server control "issue" I'm sure if she did that, RenGuard would fail miserably, as the only servers she would be able to control would be those who ran it. If it came down to banning people who are using cheats, and being at the mercy of some evil empire messing with their server, I'm quite sure most people would choose to deal with the cheaters.

Effective moderation deals with cheaters just fine, something you people never quite learned...
