Today, a11serv.tk opened a 16 players dedicated Reborn server. The server should be online 24-7 and I'll continue supporting the mod with new servers after the next patches. The server is currently hosted on an Xeon with 2GB ram. The only other processes running is a COD server. The connection is a 5MB line but we'll be upgrading to a 100MB within a few months.

Hope to see you there,  
xptek.

Anyway, I find this quite comical. I join Alkaline's Shitborn server to test (yet another) Reborn bug, and I get a PM asking if I'm cwazyape. I respond yes. Then he asks me to "please leave" for "all the shit I talk on renegadeforums".

Alkaline

I asked you to leave because you go around saying reborn sucks so why are you in my server?
