j\_ball430You're attacking the "government" of the forums. You are attacking n00bstories. n00bstories is what supports these forums. You can speak out against them, but you're trying to destroy the very fabric that holds the two together.

You have the right to self-defense, as you do in these forums, but when Alkaline takes it upon himself to start a new thread to flame xptek (this also happened against Alkaline...so i'm not just pointing the finger at him) they are allowing themselves to be attacked back.

I don't think you realize that what you just said can also be directed back at you. Am I Alkaline? No. Did I ask to be included in your little group of "fucktards"? No. I was in fact defending myself, as I was mentioned earlier as being the reason for your name change. You folks attacked me first, now I'm typing my scary, scary words back.
