Scopehun1 want to download some new skins for Renegade, will RG stop this?

RenGuard will not interfere with the download itself.

Also, on some servers RenGuard is not set to Pure-Mode so this means that skins (any skins) are allowed to play with.

But most servers are set to run in Pure-Mode and on this servers you will be instantly kicked for having skins on your pc.

Just keep your original files, it saves you alot of trouble when you lost track of what was and what wasnt allowed to have on Pure-Servers and your forced to reinstall your entire Ren again :S
