Yes, ranking was one of the features I wish i could have implemented when you all moved over here. I certainly don't forget spending two straight days modifying a phpBB template to look like our old home.

Then there was R. Daneel Olivaw, a short lived disliked member... PlanetShaun.co.ck, Devinoch, Dirty Delphi Sex (and many variations)... PlanetShaun.co.uk who had to put >> in front of any topic he started :rolleyes:... The Aircraft beta where ACK and I started the "shoot another building with your buggy when you rush another" tactic and won like 3 maps in a row. (and the birth of "ownage, plain and simple")

Oh, what else... EAREpSegue, TOS violations, "ANTI" which was an anti-n00b club similar to NFD....
